

# De novo Sphingolipid Biosynthetic Pathway

05:34:16

**GCSDG2021-HLS**

*Certificate of Appreciation*

Presented to

**Dr. Velayoudame Parthibane, National Cancer Institute,  
Frederick, MD, United States of America**

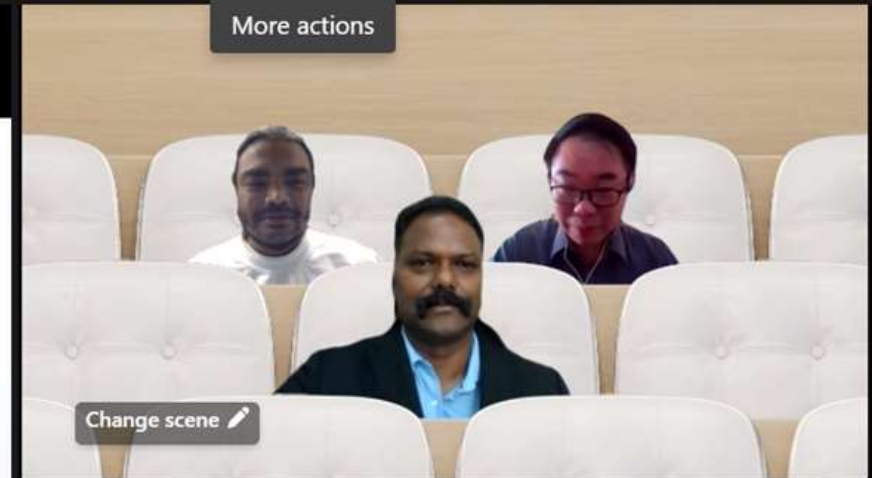

in recognition of his contribution as **Keynote speaker** in

**Virtual Global Congress on Sustainable  
Growth & Development 2021- Health and Life Sciences**

**on October 09, 2021**

*Shing*  
Advisor  
Prof Dr Wong Ling Shing  
INTI International University  
Malaysia

*Senthil Kumar*  
Convener  
Prof Dr Senthilkumar Balasubramanian  
Thiruvalluvar University  
India

## BEST ORAL PRESENTATION

Awarded to

*Mrs. Farzana Fathima Mohamed Rasheed*

For the selected presentation entitled

*"MYCOSYNTHESIS OF GOLD NANOPARTICLES AND ITS CYTOTOXIC ACTIVITY"*

at Virtual Global Congress on Sustainable Growth & Development 2021- Health and Life Sciences on October 8- 9, 2021

Advisor  
Prof Dr Wong Ling Shing  
INTI International University  
Malaysia

Convener  
Prof Dr Senthilkumar Balasubramanian  
Thiruvalluvar University  
India

## Nanotechnology in Remediation (Environmental clean up)

### PHOTOCATALYSIS

- TiO<sub>2</sub> is the most popular and widely used Photocatalyst
- It exists naturally in 3 forms: Rutile, Anatase and Brookite out of which Anatase is the most often used
- When TiO<sub>2</sub> is irradiated by UV light in the range of 200–390 nm, electron-hole pair (e<sup>-</sup> -h<sup>+</sup>)s is photoexcited
- They move into the conduction (CB) and valent (VB) bands, which results in charge separation for an effective photocatalytic function depending on redox potential of a substrate
- Therefore, the biodegradability of heavily decomposable substances can be increased in a pretreatment step

## Human Capital and Sustainable Development of Goat Farmers

From talking with goat farmer in Lampang province. It was a short narrative talk. It was found that

*“Currently, farmers rely only on the old knowledge about goat farming, which they have accumulated through individual experiences that may not be enough. Because each farmer has different experiences or failures in raising goats, but must seek further knowledge Training to increase the body of knowledge as a guideline for goat raising management along with building skills by practicing until proficiency Expertise in Goat Farming Practice until the fluency Fast in operation”*
