## SYNOPSIS & OBJECTIVES

The sustainable growth and development are very important to provide a greener and safer planet for our younger generation. The Global Congress on Sustainable Growth and Development aims to identify the contributing factors to sustainable growth and development in the field of health and life sciences. With the increase of human population, the congress provides an international platform for all the experts to debate and formulate ways to support the United Nation Sustainable Development Goals.

### GCSGD2022- HLS aims to:

1. Bring together academicians and world experts to present and share their expertise, knowledge and research findings towards sustainability and growth in Health and Life Sciences.
2. Stimulate and strengthen interdisciplinary research links among researchers and stakeholders worldwide to take the bold and transformative steps to shift the world on to a sustainable and resilient path.
