Research Methodology

Study Selection

3

3.1 Inclusion criteria were

- (1) according to the study designs: systematic reviews and/or meta-analyses, randomized controlled trials (RCT)/quasi-RCT, Longitudinal and cross-sectional studies.
- (2) according to the languages: articles only published in English or Thai.
- (3) according to the age of participants: early adolescents (10 to 15 years of age), and disadvantaged early adolescents.
- (4) according to the study topics: only articles examining the effectiveness of social skills training for depressed mood intervention

3.2 Exclusion criteria were

- (1) Conference abstracts, case report/series
- (2) Studies investigating social skills training on mental health problems without close associations with depressed mood.
- (3) Incomplete research, The details are inadequate and inappropriate for the objectives.
