International University

YOUR FUTURE BUILT TODAY

Co-organisers:

IET The Institution of
Engineering and Technology

CGSTM 2023

International Conference on Green Sustainable Technology and Management

Scientific and Social Business Development Towards Green Sustainability

Aim

The conference aims to provide an international platform for researchers, academicians, and experts from various fields to present the latest findings and research that contribute to UN sustainable development goals.

The conference also aims to provide solutions to the existing and future challenges through the fields of engineering and information technology, health and life sciences, education, business and management, and to generate knowledge to make our world a greener place to live, and a better place for future generations.

Conference Date

8-9 June 2023

online
